

Greystone 3 Year Duration Fund

\$8.5B (C\$) in Fixed Income Assets Under Management

Why Invest in Greystone

- We have worked with clients since our inception to construct fixed income portfolios that match liabilities.
- For smaller asset sizes, duration pools can provide a strong liability match through a scalable solution.

Investment Philosophy

- We believe that matching portfolios should start with liabilities versus a market based benchmark. Greystone will create a custom mix of duration pools based of each client's specific liability profile.
- To assist with governance we will also provide benchmarks that demonstrate the appropriate risk-adjusted return based on the liability profile.

Our Investment Process

Objective

The Greystone suite of target duration funds seeks to provide investors with an efficient platform for matching fixed income portfolios with custom liability streams or obligations.

Each fund targets a static duration exposure allowing investors to blend an allocation according to their specific needs.

We believe that additional value can be generated by managing the sector allocation in accordance with our fixed income outlook
